

Session Three

This rotation of The **CORE @ COVENANT** we have been exploring the Lost Ark of the Covenant. Along the way we have discovered the Biblical record of what the Ark is, why it is important, and what these lessons mean to us now. Tonight we continue our study and will look toward where they ark might be now.

A section of our handouts each week will suggest additional resources for you to explore and if you visit the website at www.touchandchange.com you will find some additional resources there as well.
